

IMPACT DRIVEN BYE GARY

Driving Impact, Defending Crypto

IS GARY LISTENING?

For those who believe in the power of collective action, where NFTs are not just art, but a signature of protest against those who stifle the growth of crypto.

About

Impact-Driven Bye Gary is an NFT project that aims to raise awareness and advocate for the crypto community against the unfair treatment of the SEC chair, Gary Gensler.

Impact-driven people react when they see wrong happening. They focus their resources and energies to stand against it in their capacity and try to correct it. That's the vision behind Impact-Driven Bye Gary – a powerful voice that echoes rebuke against unfair treatment of crypto from government officials, particularly SEC chairman Gary Gensler.

We are a community that challenges the status quo and demands fair treatment from the regulators. The hostile and dismissive behavior toward an asset class from an official creates uncertainty and demeans the position of Gary himself.

His statements like “We don’t need more digital currency...we already have digital currency, it’s called the U.S. dollar” show a lack of understanding, respect, and vision for the future of the crypto world. Bye Gary is our response as a sign of protest and solidarity. Every Bye Gary NFTs is a petition and a strong voice that resonates through the corridors of regulation.

We don’t believe in animosity or confrontation. Instead, every NFT is a hope for a more understanding and supportive regulatory environment.

The Problem with Gary

Crypto is full of fraud,
abuse, and misconduct.

Imagine a person with a powerful position, yet biased against a community. How can we expect fair treatment from such a person? Should we trust such a person to protect our rights and interests? Can we let such a person dictate our future? Criticism in a personal capacity is okay as we have been hearing “**Bitcoin is dead**” a lot.

However, when it comes from a person like Gary Gensler, the chair of the Securities and Exchange Commission (SEC), the federal agency that regulates the securities markets in the United States, it creates uncertainty for the entire crypto market.

Gary is also one of the most vocal and influential critics of crypto and NFTs. He has repeatedly expressed his skepticism and hostility towards the industry, calling it a “wild west” that needs more regulation and oversight. Gary holds a very powerful position that comes with a responsibility to be fair, balanced, and transparent.

Unfortunately, Gary Gensler has failed to fulfill his responsibility. He has been unfair, biased, and opaque in his approach to crypto and NFTs. His statements often create uncertainty and fear in the industry and hurt investors through frequent FUDs.

Bye Gary: Our Response

Gary Gensler's remarks created discontent within the crypto community and individual expressions of resentment from the crypto community are no longer sufficient. With the Impact-Driven Bye Gary NFT collection, we stand to raise our collective voice in protest. Our collective voice creates a ripple effect to move the entire crypto community.

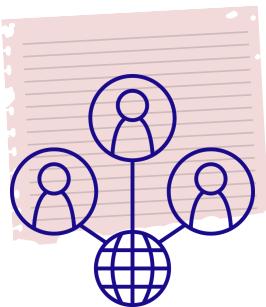

Bye Gary is a collection of 100k signature petitions serving as a sign of protest, it echoes rebuke and resistance against the unfair treatment of the crypto community. For our community, every obstacle that hinders the growth of crypto through unjust means is a Gary – and we will stand against every such Gary to say goodbye Gary!

Bye Gary NFT collection is subdivided into 10 different community sections, each focusing on a different domain.

Team	Number of NFTs
Team Bitcoin	10,000
Team Ethereum	10,000
Team XRP	10,000
Team Doge	10,000
Team BNB	10,000
Team X	10,000

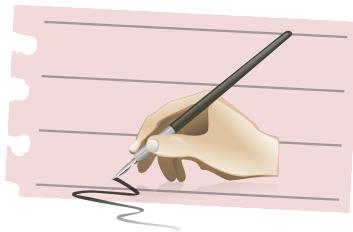

After the successful release of NFTs for the initial 5 teams, Impact-Driven Bye Gary will use a community-driven approach for the next phase, allowing existing NFT holders to expand the project through DAO.

Utilities:

Empowering the Community:

Bye Gary empowers individuals to unite and actively confront the unfair treatment of the crypto community by regulatory authorities.

NFTs as Petitions:

To challenge Gary Gensler's biased stance, each NFT uses smart contracts to sign a petition – a groundbreaking approach never seen before in the crypto space.

Quirky PFPs (Profile Pictures):

Using the influential reach of social media, use your NFT as a profile picture to show community solidarity and create a visible and vocal presence online

NFT Gated Premium Access:

NFTs are your pass to access the premium channels where we strategize our plan of action and be part of it.

Governance Rights:

Combine your NFT with the \$BGT token and use it as your governance right in our DAO to propose and vote on the future developments of the ecosystem.

Bye Gary: Ecosystem:

1. DAO

Our community is in the driving seat as Bye Gary is a community-centered project. Using a hybrid governance model, Bye Gary NFT and Bye Gary Token (\$BGT) holders can propose and vote on changes and improvements for the project.

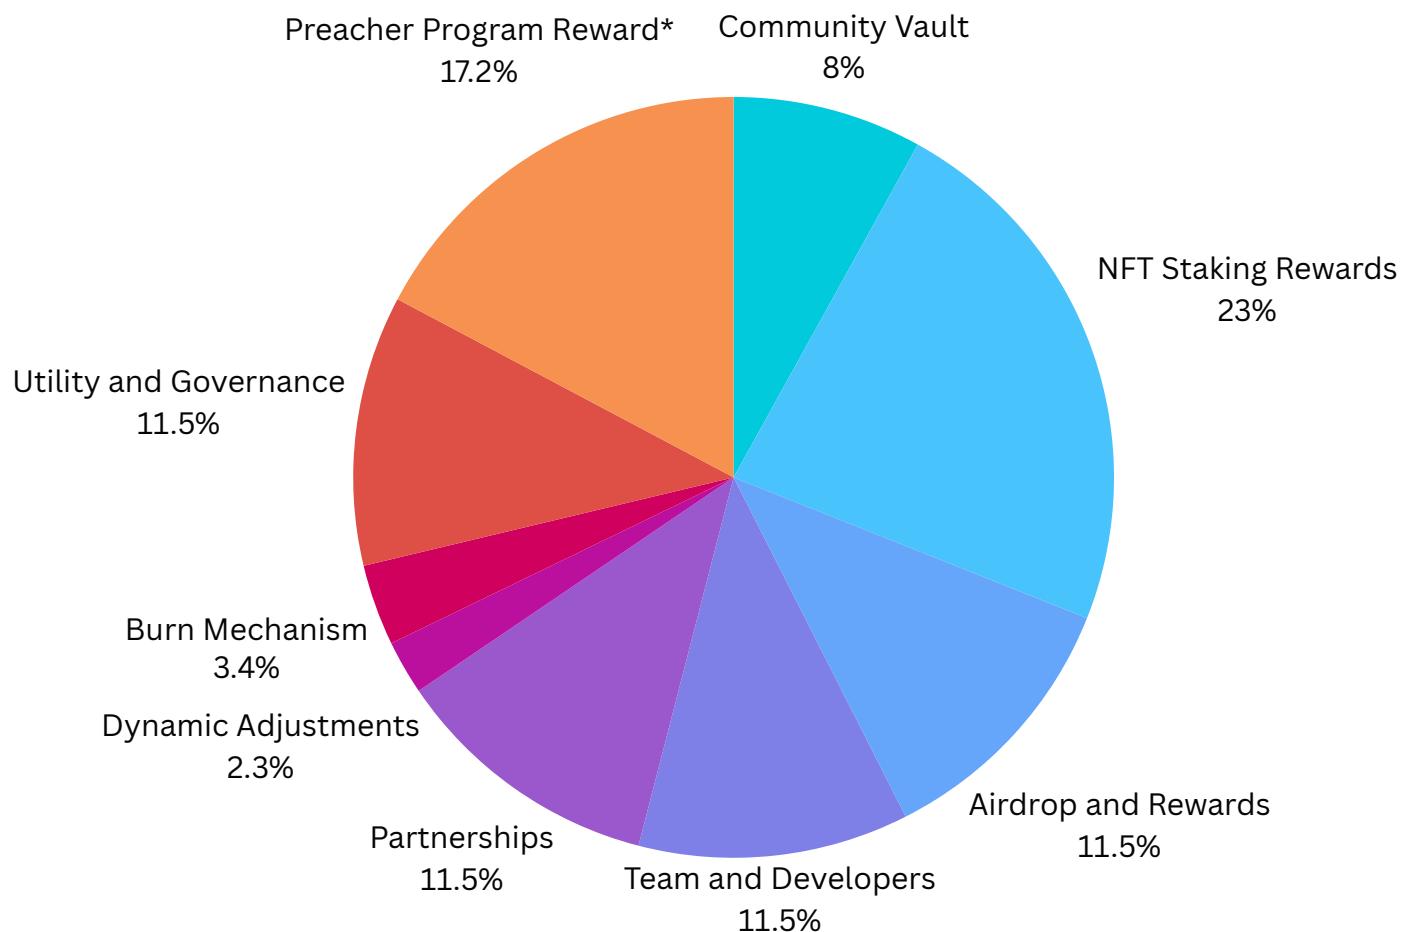

Through the project's governance, the community will decide on the upcoming team names and release dates. The DAO will also be used to plan on how to react to a certain event, such as a new regulation, a market opportunity, or a social movement, that affects the crypto industry.

2. Token

Bye Gary Token \$BGT is the backbone and the fuel of the Impact-Driven Bye Gary ecosystem. The token has a 100 million total supply with a deflationary approach to ensure the scarcity. The token offers numerous use-case in the Bye Gary ecosystem:

- **Governance:** The \$BGT token is combined by NFTs to vote in the Bye Gary DAO.
- **Community Vault:** A portion of \$BGT tokens is allocated to the community vault to fund Bye Gary's expansion, partnerships, and strategic directions. The funds will be used through the community DAO.
- **Fuel in the Ecosystem:** \$BGT serves as the fuel powering various transactions and activities within the Bye Gary ecosystem, including NFT purchases, governance proposals, and community-driven initiatives.
- **Airdrop and Rewards for NFT Staking:** NFT holders can stake their NFTs to get rewards in \$BGT tokens. Airdrops and other rewards are also distributed in \$BGT tokens.
- **Deflationary Nature:** The circulation supply of the token reduces every time a Team NFTs are released. 3% of the profits from NFT sales of each team is used to buy back and burn the \$BGT tokens.

Tokenomics

*Bye Gary will reward successful lobbyists 15% of the \$BGT tokens for lobbying in favor of crypto. The tokens will be released through DAO.

3. Go Learn Gary

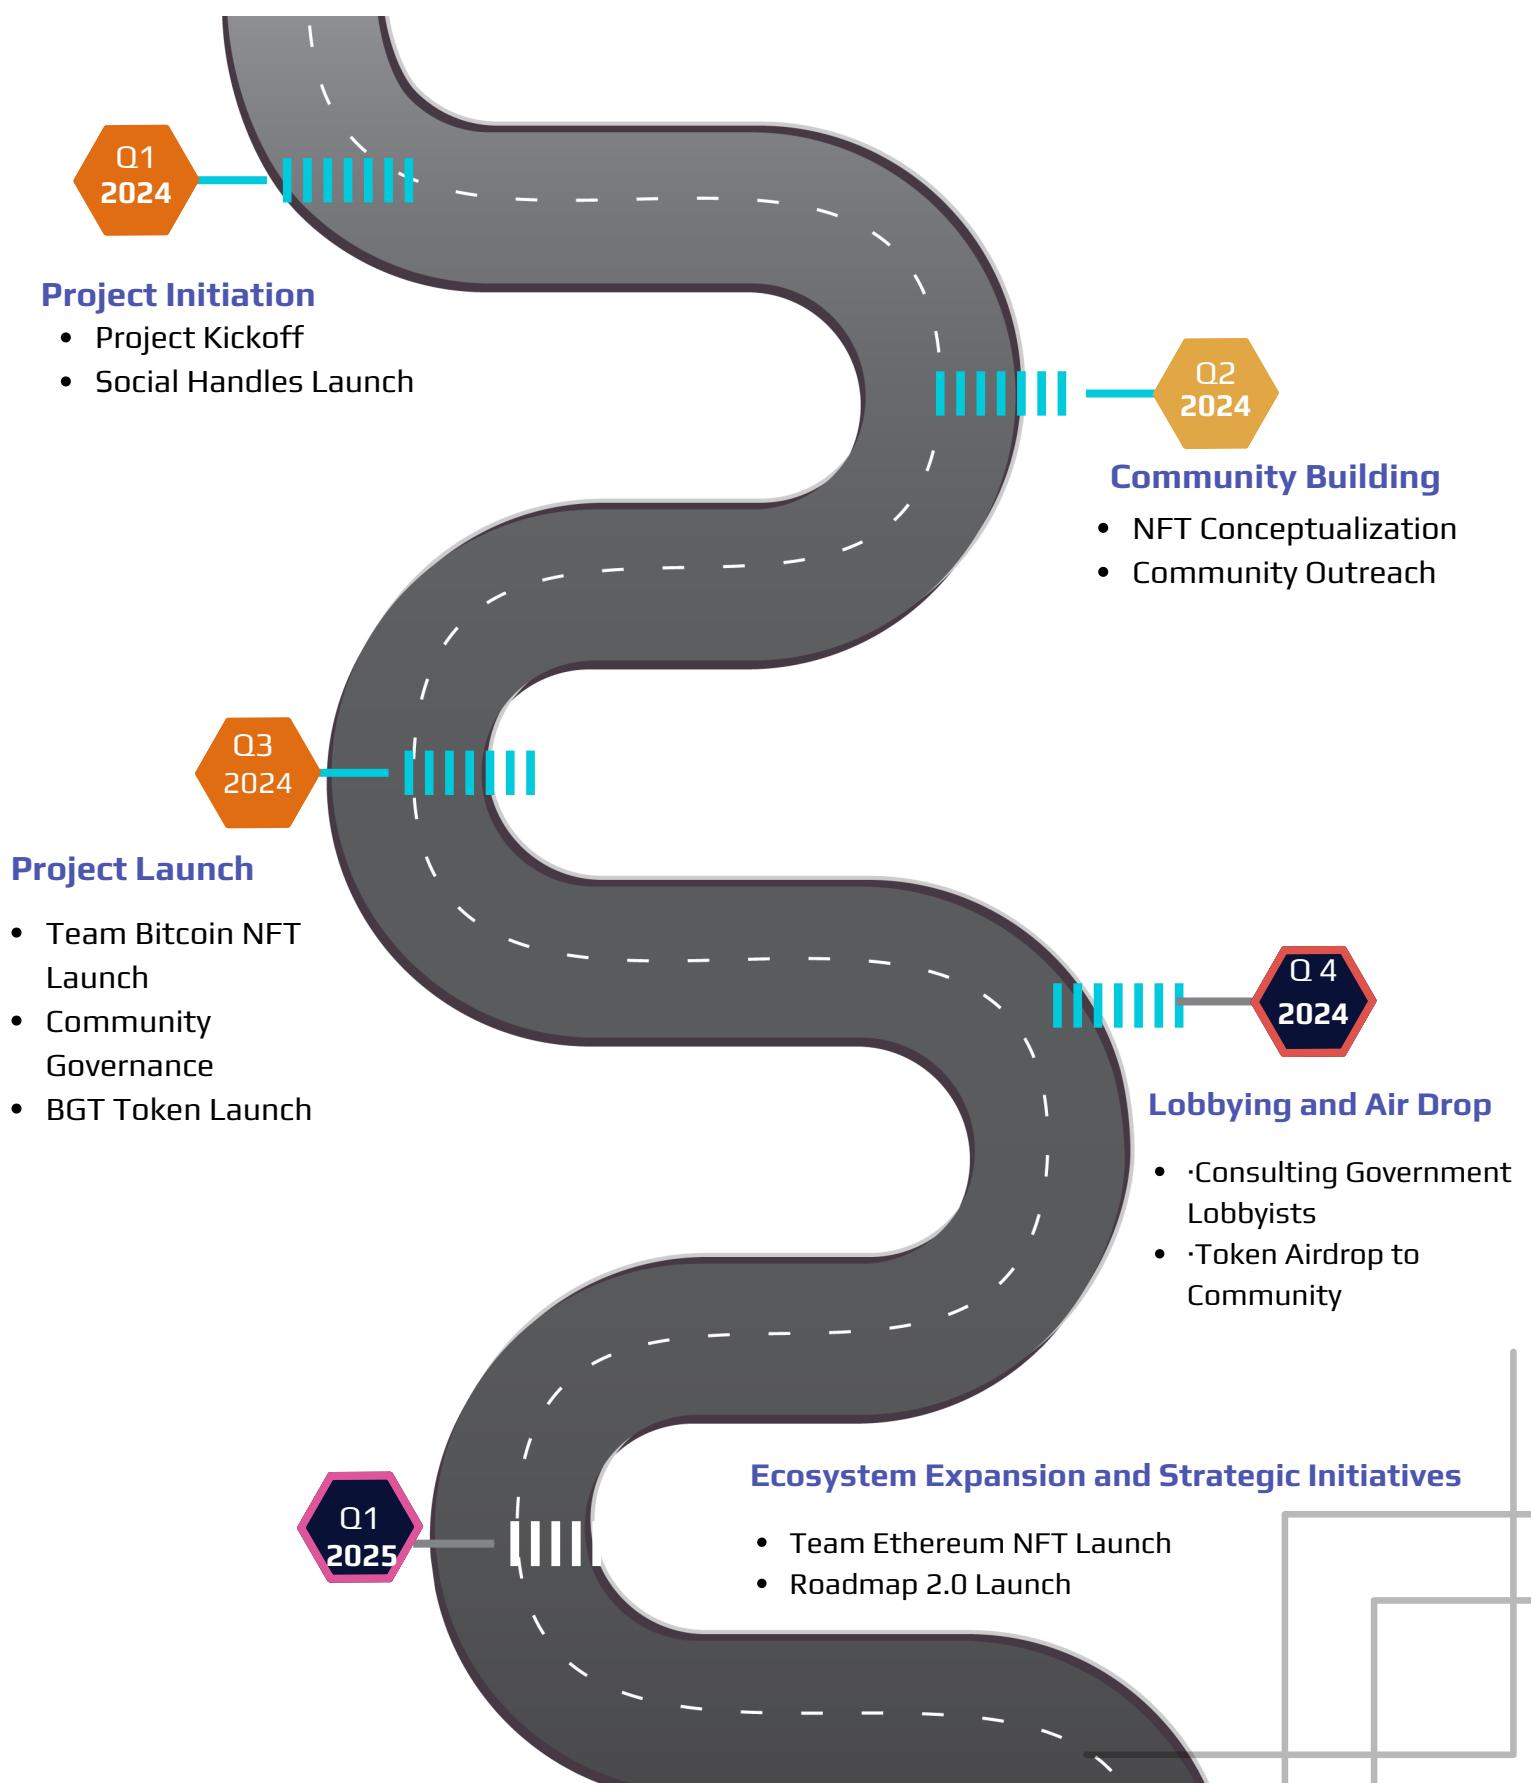

From Gary Gensler's remarks about crypto and naming the U.S. dollar as a digital currency, we concluded that there is a good need to spread awareness about crypto and its potential. Go Learn Gary is a free crypto course that debunks common myths and explains crypto's technical terms in a simple and fun way to all.

4. Preacher Program: Lobbying

We own crypto like no other community does and therefore, Bye Gary is more than just a protest or celebration project. We actively back those who can influence the policymakers, members of the congress, and the regulators for a supportive and favorable environment for crypt and NFTs.

Impact-Dirven Bye Gary has allocated ~15 million tokens to back these influencers. The tokens will be released through our DAO, where our NFT and token holders can vote on the proposals and the outcomes of the lobbying efforts.

Roadmap: Our Journey Ahead

Disclaimer

Impact Driven Bye Gary is a community-driven movement to raise voice and awareness against the challenges and obstacles for crypto growth. Whether you're here for the artistic NFTs, the governance power, or the occasional chuckle, your presence adds to our narrative.

Impact Driven Bye Gary is not intended to disrespect anyone including Gary Gensler in any capacity nor does it promote any illegal or unethical activities. The Bye Gensler digital assets are not financial instruments, securities, or investments of any kind. The project is not affiliated with, endorsed by, or sponsored by Gary Gensler, the SEC, or any other regulatory authority.
